Municipal Elections. TO THE ELECTORS OF COOK WARD. LIPPS Gentlemen,—Some two years ago I was requested by many free-holiders and residents of Oosk Ward to allow myself to be nominated as a cannidate for the position of Alderman in the said Ward. Circumetances, however, at the time compelled me very rejuctantly to decline the honour. I, however, gave a promise that at some future time, should you deem me worthy of your confidence. I would willingly place my services at your disposal. That time has now arrived, for at the request of many influential ratepayers I have consented to become a candidate for your suffrages. My business for the past 20 years has afforded me an opportunity of acquiring a knowledge of the requirements, sanitary and otherwise, of the eight general, and of your Ward. in which, as most of you are aware. I am a resident and considerable free holder. Now ward, I sannot help saying, has been shamefully neglected in the past; and should you do me the honour of electing me as your respire sentative in the City Council, I promise you that I will serve you honestly and fouriessly to the best of my ability.

PERRY will be nominated, and go to the poll. Books, Publications. &c.

Among the subjects under discussion at the Cabinet meetings during the past week, I understand, has been

the New Guinea question, which has come up for dis-posal. The Cabinet have now decided upon the annexation of the southern portion of New Guinea, which we understand to mean the long promontory rouning down to the southern portion of New Guinea, which we understand to mean the long promontory rouning down to the southern portion of the Government, however, in on answer to the request set forth in the letter of the Agenta-General of July 23rd, saking for an effective jurisdiction, not only over the western Pacific Islands. The last three words were intended to cover. New Britan, New Ignory Island, the Solomon Isles, and Santa Cruz. The action of the Agenta-General in regard to this subject has been a little uncertain. I have already explained in my last letter that, in consequence of instructions from the Sydney Government, Sir Sanl Samusl had made known to Lord Derby that the New South Wales authosities had no deairs to insist upon an immediate decision as to the request contained in the letter of July 23. LONDON, Oct. 10.

The Queen and the Heir Apparent are known to be
very anxious that the meant deadlock between that the present deadlock between that the upset of these sources of this communication, or, what is
more likely, owing to negotiations which mey have
taken piace on your side between the Governments of
New South Wales and some of the neighbouring
colonies, I know not, for those sources from which
information can best be obtained are naturally unavailable to newspaper correspondents. But the fact
remains that on Tuesday last further instructions
were wired to your Agent-General, and be, in conjunction with his colleagues, presented the Government with
a request that a reply should be given to their letter of
July 23.

July 23.

It is difficult to say what will be the upshot of these proceedings. In view of the changed condition of affairs and routes of trailic which must follow the to any other the present deadlock between the two Houses of Legislature over the Franchise Bill should be brought to a termination. The Duke of Richmond and Gordon, the Marquis of Salisbury, and Earl Cairne have been speading many hours in consultation together this week, and there is little doubt but take to my provement in Egyptian affairs still continues, and but for the unfortunate murder of Colonal Stewart it is even doubtful whether the Wolseley expedition would, after all, have proceeded to Khartoum. Stewart's misfortune, however, will see we did in the case of the murder of Professor Palmer. All secounts agree that the Mahdi is a weed did in the case of the murder of Professor Palmer. All secounts agree that the Mahdi is not repeated to the professor in the professor in

Mr. Moore has already been offered £1500 for the three, but has decided to self them at that price.

offered £1000 for the three, but has decined to sent them at that price.

Some indignant correspondence has been going on in-the papers with reference to the habit of the Prime-Minister of addressing the public from the platform of, a railway carriage. We are told that his practice of doing so during his recent tour in Scotland caused, grave inconvenience to the Scotch railway authorities, and thaten asvarai conssions socidents were very narrowly

unanimity than had previously been established. The hesitation of Sir A. Blyth, and the wavering action of Sir billon Bell, had, under instructions from their respective Governments, given place to a more decided accord with the Victorian representative. For a time it seemed as though Sir Saul Samuel and New South Walse might either be entirely ignored, or that the action of your Government would bring this question to a dead stop. According to current estatements, which I gather from outside sources, Sir Saul, Samuel telegraphed to Sydney a few days ago, saking whether the included extension and protection of intergraphed to Sydney a few days ago, saking whether the instructions to refrain from ioint setton with the other

In the Import markets to-day there was a fair trade, for immediate requirements chiefly, although some of the business done was evidently in view of the Christmas demand. The flour trade is monotonously dull, buyers operating in small lote only, at the following prices:—Adelaids, town brands £9 10s. to £9 15s., country £8 10s. to £9 10s. to £9 15s., country £8 10s. to £9; New South Wales, £9 to £9 10s.; Victorian, £8 10s. to £9; roller-made flour selling at 10s. extra. Mesers. W. Cave and Co., under date Port Adelaids, 12th instant, report an extremely dull market, wheat having fallen to 3s. 6d., f.o.b. The residue of the past season's wheat, it is thought, must be very small when the present loadings are completed, and the new season will be begun with but little of the old stocks in hand. The prospects of a good harvest were still favourable. Some few forward contracts with the farmer had been made at 3s. 3d. There was but little business in tea to-day. An auction catalogue was passed. A more extansive one to be offered tomorrow (Wednesday) morning may afford scope for speculative business. The public sale of sugar was as unanoceasful as that of tea; buyers for the time command the position, and we do not hear of very much being done privately. For anything like a parcel sellers have to make concessions, and transactions of this nature are not allowed to be disclosed. A quantity of elemes, good fruit, was sold publicly at 54d. A good demand noted for ings at from 9s. to 10s. 3d., much of the fruit offering being of inferior quality. Coarse salt is scarcely so firm, 70s. being outside value for parcels for forward delivery, 72s. 6d. on the spot. In late out of the fall to 1s. 2d. English malt is worth 7s. to 7s. 3d. Mesers. Fraser and Co. will offer at auction to-morrow (Wednesday) morning about 4000 packages tea, Mauritius and other sugars, groosies, &c.; and in the afternoon, Baltic and Oregon lumber.

Mr. John Bridge reports having offered 1267 bales at his wool sale to-day. The attendance of buyers was extremely large, and competition spirited throughout the sale. The catalogue comprised chiefly medium to superior flasce wools in the grease, and with the exception of about 150 bales of the latter, which was passed in, being rather balow owner's limits, nearly every line was sold at the following range of values:—Sooured lat to 20d., fleece to 15½d., grease to 10½d. Amongst other wools sold were the following:—Ew over PP, 49 bales from Inversil, at 10½d.; M. Bros over G. Noulamain, 156 from Moree at 8d.; BB over Bogswong, 55 from Walgettat 7½d., 41 at 6½d.; HXE over The Rookery, 71 from Cobar at 9½d.; WW, 35 from Coonamble at 71 from Cobar at 94d.; WM. 35 from Comamble at 8d.: JD over 2, 6 from Rylstone at 10d.; JS over Banandra, 56 at 8½d.; Won, scoured firsts at 20d.; John Power, 10 bales fleece at 15d. A moderate-sized catalogue of sheepskins sold well at up to 7½d. for full-

Our Adelaide correspondent telegraphs that Elder's Wool and Produce Company offered at auction 2700 beles of wool to-day, for which the competition was keen, and nearly all of it was sold. Merines, crossbreds, gressy, brought up to 10½d; secured, 18. 8½d. By the incoming mail we have Lenden commercial files to the 10th ultimo. The money market had gradually hardened, owing chiefly to the withdrawal of gold to America; and on the 9th ultimo the Bank of England rate was raised from 2 to 3 per cent. Colonial Government securities were without much change in value. The Sydney Morning Herald.

WEDNESDAY, NOVEMBER 19, 1884.

This is the 19th November, and we are to witness to-day the opening of the session proper to the year, the work of which would, in the regular course of events, have been finished a month ago. We have doubtless been far month ago. We have doubtless been far away from the regular course of events throughout the year. We have been breaking up the Land Law of 1861 and introducing a new law in its place, and to many that has been little less than an interference with the established order of nature. In presence of such proceedings, what wonder that ordinary arrangements for the due and timely transaction of Parliamentary business should have got out of gear. But, wonder or no wonder, the fact remains that Parliament is about to enter on business which should have been despatched at least a month ago if we had been conducting Parliamentary affairs with anything like the regularity that is attainable in the Imperial Parliament. The year was well advanced first time in this colory since the astablish-LIGANS ON MORTGAGE of Freehold Property granted at current rates.

We all know the issue. The invitation was concluded in such remarkable terms that the the Assembly, its Speaker and officers, and its members, the case is one of profound importance. Sir James Martin

The situation is of 1884 had passed away. and urgency requiring attention; but over and above them all is the need for bringing the discharge of Parliamentary duty into something like regular order and within proper limits. This can only be done by may as well be made now. If the sacrific present session can be confined to the disposal of the financial business of the year, any important question that may present itself. unsatisfactory mode of procedure must be as did Mr. Bradlauch in the continued. It is understood that the intention Bradlauch v. Gossett, the of the Government is to thus narrow down the range of public business; but the intentions of a Government are not the only forces that

go to determine the length of a session.

There is, however, one matter connected with finance, but extending beyond the lines of a merely financial programme, which the Government cannot creditably refrain from bringing forward. On the eve of the proro-gation the Government, bound by its pledges to the Sydney Convention, proceeded to submit a series of resolutions, some at submit a series of resolutions, some at a jury case, and where the jurors have no least of which had been rendered by the lapse of time and the course of events inapplicable to the actual circumstances. The House refused to go into compittee for their consideration, and the action

of the House set the Government free the Government need no longer feel consined to act as representative of the Convern or to follow a course which, probably in tiudg-ment of its own members, is seen to be jound. measures as a regard for the grammand the general interests of the cole would seem to dictate. It would be a pir of the worst taste now to revive the trains of the Convention by submitting the solution of the Convention relating to N. Guinea. For full particulars see advertisement on page 16.

SUTHERLAND. The time for that has passed. Bthe time which has now come for graceful acknowledgment of the action a Imperial Government has taken in Newsuinea, in accordance with the wishes and interests of the Australasian colonies, ust not be G, allowed to pass without make such an acknowledgment. And the operanity must certainly be seized for obtainir an authoritative opinion from Parliamit as to the contribution of New South Wales to the cost of the New Guinea Prectorate. The Government is at least band to ask for a contribution towards the £5,000 originally named, although it has sright to look for further information from the Imperial authorities before proceeding to commit itself

further.

The Government is no under obligation to revive the Federal Couril question this secsion. But if it should drem it expedient to do so, a method should be chosen widely different rom that of last session. The delegaton from the Convention is at an end. The overnment can now act, if it act at all, as the Government of New South Wales. Speuld it appear expedient to obtain from our 'arliament an expression of its opinion non the questions whether federation of any sort is expedient or practicable now, and if it be, upon what principles it should rest, the Government will do well to subody the ment will do well to enbody its ideas in resolutions that may be thoroughly discussed, and not in a bill, to be either accepted in rejected in the lump. An expression of coinion so obtained might be of value if there were any chance of the subject being taken up by the Imperial Parliament in this autumn session; but that is a doubtful matter.
The Government will probably see that the
firm avoidance of debatable questions is the only way to promote the shortening of the session; and that is a result to be desired, not for the sake of lightening the labours or the risks of the Government, but in the

NOTICE OF REMOVAL

The Office of the Agents of the Agents of the Session, Parliament was dissolved. The consequence was that the new Parliament, meeting in January, 1883, had to set about the work belonging to the previous year. It was completed, with some other business, by the 2nd May—that is to say, by about the time when, if there had not been any disturbance, Parliament has to say, by about the time when, if there had not been any disturbance, Parliament has to say, by about the time when, if there had not been any disturbance, Parliament has to say, by about the time when, if there had not been any disturbance, Parliament has to say, by about the time when, if there had not been meeting in the seasion from the short special was a special state.

MICHARLY PROVIDENT—B. SHORT. CHIEF while the could also arrange that the proper to 1883, to do the work of that year. After that came the short special whole of the Judges should hear the arguments. It is not usual, we know, for the seasion proper to 1883 opened, and Parliament meets to season of the greating that the could arrange not only to set apart the could arrange not only to set apart the could arrange not only to set apart the season of the in one respect less embarrassing now than it authoritative tribunal in the land, that the was then—there is no new Land Bill to pilot decision of the Court will be awaited with the through shoals and quicksands. But to meet keenest interest, not only by Parliament and on the 19th November is hardly more promising its officers, but by the constituencies—that than to meet on the 0th October, so is to say the people, whose rights of far as the mere prospect of restoring financial continuous representation during a session of business to its right order and place is concerned. If the financial business of this year members, is indirectly in issue. In view of is to be got out of hand before its close, there will need to be both tact and firmness on the gravity of this particular case can hardly be part of the Government, and an avoidance exaggerated. And it so happens that every part of the Government, and an avoidance of obstructive action on the part of the Opposition. All this will be required even if the session is to run into next year, but close early enough to admit of the session proper to 1885 beginning at a reasonably early date. There are matters of importance and proper requiring attention: but over the present searly date. Administration. Thus the Supreme Court Bench is peculiarly qualihed, by the personal experience and past service of its mem-bers in Parliament, to consider the points raised by Mr. Taylon's demurrers with something more than the authority of theoretical jurists. And as that authority will be invoked not on an appeal from any decision of a making a sacrifice at some time; and that brother Judge, but in a proceeding which is sacrifice may as well be made now. If the absolutely res integra, the ill-considered Appeals Regulation Act of last session can disposal of the financial business of the year, possibly interpose any obstacle to a sitting of next year will be free for the discussion of the entire Bench. If the plaintiff does not object to five Judges, neither do we suppose that the SPEAKER, as defendant, will be likely to object to such a Bench, for he, as a barrister of high standing. knows the value of a large audience, even in a jury case, and where the jurors have no

we have no desire to invest this trespas ion against Mr. SPEAKER with anything of sensational character. It must be a cause there in any case; but it will be such not because it offers an opportunity for powerful appeals to human passions or sympathies, but because, excluding both those great motive powers, it will be submitted simply to the outivated intelligence of those who, happily in this colony as in the United States of America, are the constituted guardians and exponents both of the people's rights in the face of , and of the powers of Parliament and its privileges in the face of the people. have anticipated the suggestion that their whole strength ought to be directed to this case, and have made arrangements for that se. Whether that be so or not, we do not hesitate to say, in the interests of Parlianentary government, that every Judge of the Supreme Court who expresses a desire to form one of the Bench which will decide the points raised by Mr. TAYLOR'S demurrers, will not deserve ill of the country of which he was once a Parliamentary representative. The objection which, if this were an ordinary appeal case from nisi prius, or from any judicial decision or ruling, or from an inferior Court, would have some force on the score of precedent, has none in the case under conprecedent, has none in the case under one sideration. And, even if the decision of the Court should be appealed from, and taken to the Judicial Committee, the judgment of a Court of five Judges, whether unanimous or not, must have more weight than a similar judgment of a Court of three Judges, and will be less likely to be reversed on any grounds which could possibly escape the collective sagacity of a Court putting forth its full sudicial strength.

It was seemly and a pleasant thing to offer a little open-air hospitality to our American visitors, the officers of the Iroquois. It has happened just when we are being told that in America itself there is a little bad blood towards England. If that be so, Anglophobis in America may be still further excited on reading that, under shadow of our guns at George's Head, American guests and Australian hosts drank the health of the Quern of England, and that of the Passurers of the United States of America. Good feeling prompted our guns at seerge's riead, American guests and Australian hosts drank the health of the Queen of England, and that of the President of the United States of America. Good feeling prompted the offer and its acceptance to lunch and its consequent speech-making. Captain Brinking spoke with authority in saying that the Anglo-Saxon race has shown in the States of North America that it is capable of self-government, which in times of peace sits so lightly upon the people that they hardly feel it, and that in time of war is equal to any emergency. These words were eloquent, although they do not cover all the perils to which self-government is exposed in America and here. The rebellion, which he said was one of the greatest ever known, and which the Northern States repressed, pointed to evils which are not all remedied yet, but which happily are being refressed without the aid of war. It is this self-legenerative power in a people, the power of a great vitality, that is of so much significance. If the late presidential election has one feature more prominent than another, it is the reactive of leading men to make the national life pure and healthy. The future province of America and Australia in the family of nations as the arbiters of peace, may be only a hope. But home the less, it is pleasant to find men in authority, commarders of ships of war, asying that the great English-speaking race. If year the great English-speaking race will yet arbitrate and bring about the settlement of all differences between civilined nations without recort to war. This may be a long way in the future; other possibilities lie immediately before the English-speaking race. It is great English-speaking race. It great humches must thoroughly understand each other, must keep the peace between themselves, settle their own differences without war, and make it impossible for large disagreements to occur. The public hospitality of this city, which has been preceded, so Captain Strikling says, by similar kindness to him and his brother officers p

It is not probable that any insurmountable difficulty will be experienced in raising the funds requisite to complete the north gable of St Mary's Cahedral. At the meeting on Monday evening enthusiasm prevailed, and the considerable sum of \$900 was handed in in a very few minutes. It is not, however, to be expected that this enthusiasm will be maintained at the pitch to which it had been wrought by a good deal of impassioned rather than accurate speaking, and therefore it is not to be supposed that the balance required will be contributed with proportionate celerity; but there is every reason to believe that the requisite amount will be obtained, as required, and that within a year the northern gable will be completed and decorated with the Archbishop VAUGHAM memorial window. It may be hoped also that the beauty of the completed portion of the Cathedral will be an incentive to the Roman Catholics of the community to raise funds for the completion of the remainder, whether by poor men's pence or rich men's pounds signifying little. The Cathedral completed will be a magnificent ornament in the city, and will aid to fill in the gap which exists in our present architectural display. Doubtless, in other lands churches have monopolised too much of the architectural skill and the public wealth, and in some Italian cities it is notorious that at the feet of the magnificent emplificent emplificent cathedral grovels the most them for the most magnificent and the public wealth, and in some Italian cities it is notorious that at the feet of the most magnificent exchanges from the chartes the most them can be considered to much of the most magnificent exchanges the most them the considered them that the feet of the most magnificent exchanges the most that the feet of the most magnificent exchanges the most that the feet of the most magnificent exchanges the most that the feet of the most magnificent exchanges the most that the feet of the most magnificent exchanges the most that the feet of the most magnificent exchanges and architectural skill and the public wealth, and in some Italian cities it is notorious that at the feet of the most magnificent eathedrals grovels the most abject and miserable poverty. Unquestionably their progress has not been uniform; ecclesiantally their progress has not been uniform; ecclesiantally their progress. But here, as in every other city of the new world, it has been otherwise managed. Our churches and cathedrals are not among our chief buildings. Public and municipal offices, private residences, even ordinary commercial buildings, overtop and outshine them, and generally the ordinary parish church may be said to have less pretensions to architectural beauty than the new State school. Supporters of churches have ground to recover here, special effort to make to bring up their buildings to the style the civilisation of the time demands; and the Roman Catholic body may be congratulated upon their energy and self-sacrifice in raising this Cathedral, which, when completed, will be the chief ecclesiastical structure in the southern world. Church-building is not the only or the most important portion of Christian work. The priest and the service should be well housed, but every hungry man should be fed, every suffering woman comforted, every lamb of the flock be provided with all the necessities which the beginnings of life demand. But in Australia there is enough for all this, and a liberal surplus for the Churches when all is performed; nor is it by any means certain that if the Church surplus is not spent in the Church it will be bestowed in works of sharity. ome Italian cities it is notorious that at the feet of

Ganges arrived on Monday night, with the English mails to October 17. The object of the Imperial Government, it is said, was apparently to give satisfaction to the colonies, and at the same time not to offend the humanitarians and Radicals by a direct act of annexation. Our telegram from Albany also contains other news brought by the Ganges. The Ganges arrived in King George Sound two days in advance of contract time, and the Sydney portion of her mails will probably be delivered next Monday.

The cricket match between Shaw's English team and a Victorian team concluded yesterday, on the Melbourne cricket ground. The weather was fine. The second innings of the Victorians was a surprise and disappointment to the spectators, as they succeeded in putting together only 88. The Englishmen won the match by 118 runs.

On inquiry we learn that nothing fresh is reported from North Head Quarantine Station. Latest accounts stated that the smallpox patients were progressing

favourably.

As important question came up for decision before the Full Court yesterday. It arose out of a ruling of Mr. District Court Judge Forbes in an action in which a seaman sued the A. S. N. Company to recover damages for injuries received owing to the alleged negligence of defandant company's servants. The point raised by defandant company was that the Liability of Employers Act, 46 Victoria, No. 6, did not apply to the case of seamen. The District Court Judge decided that the Act did apply to seamen, and the Court was appealed to to settle the point. The Court held that the Act was not intended to apply to every person engaged in manual labour, but defined it to mean, according to the Act, "a rallway servant, or any other servant being a intended to apply to every person engaged in manual labour, but defined it to man, according to the Act, "a rallway servant, or any other servant being a labourer, servant in husbandry, or journeyman, artificer, handicraftsman, miner, or otherwise engaged in manual labour." The words quoted must be taken to apply to the kind of labour previously enumerated, and were not inheaded to apply to seamen. The decision of the Judge below was therefore reversed, and the verdict entered for defendant. In the case of Waters v. Walters, the Court was saked to express an opinion whether the conviction of defendant under the Betting Houses Suppression Act was good. The arguments in this case were not concluded when the Court rose. His Honor the Primary Judge and a jury of four continued the hearing of the extraordinary Equity suit Diggins v. Clark, which arcse out of the alleged payment off in cash of a mortgage of £1000 on the Pioner Hotel, Kangaroo Valley. The statements made were of a very serious character, and involve grave issues. The defendant was being examined when the further hearing was adjourned till to-day.

A xerrino of the City of Sydney Improvement

A MENTINO of the City of Sydnoy Improvement Board was held yesterday, the business being to hear and determine an appeal from Mesars. Backhouse and Sponcer against alleged disapproval of the City Building Surveyor of certain plans for proposed buildings and paved way between Merriman and Bettington streets; and also to consider and deal with a report from the City Surveyor relative to the dangerous condition of premises No. 118, Harrington-street. Mr. William Bailey, J.P., occupied the chair. In the case of Mesars, Backhouse and Spencer, Mr. Fitchardinge, solicitor, applied for a further postponement of the case until the 25th instant, which was agreed to by the City Solicitor and granted by the board. The report of the surveyor relative to the house in Harrington-street was then dealt with. This care had been adjourned at the instance of the occupier, Mr. Albert Goldstein, to enable him to confer with the owner of the premises and to secure his attendance before the board. An inapection of the building was made last week by the members of the board, when the owner failed to put in an appearance. Mr. Goldstein, on being sworn yesterday, gave some evidence, which did not throw much light on the stability of the structure: and after some deliberation the board made an order that the building be taken down before 31st December next. A MEETING of the City of Sydney Improvement down before 31st December next. THE usual monthly board meeting of the Hospital

down before 31st December next.

The usual monthly board meeting of the Heepital for 5tok Children was held on Monday atternoos, Sir G. Wigram Allen presiding. There were present—Lady Allen, Lady Marin, Musdemee Wikinson, Carron, Ghilise, Fraser, Mort, Stephen, Marks, Thomson, and Bailtle, the Misses Mackie and Wilkinson, and Messra, Mitchell, B. A. Stephen, Ward, and H. Kent. The house committee's report showed that during the past month there had been 11 patients admitted, 12 discharged, that one had died, and that 20 were remaining in the hospital. A statistical return, which had been drawn up by the lady superintendent, showed that the admissions to the hospital since its institution had been as follows:—During the first year, 55; second year, 64; third year, 94; fourth year, 115; and up to November 15 of the present year, 143. The Melbourne Children's Hospital in its fourth year admitted 55 children, and showed a balance of £333, while the Sydney Children's Hospital had in its fourth year admitted 55 children, and reported a balance of £578. Further comparisons with Sydney hospitals showed that while in 1893 the death-rate in the Sydney Hospital from typhoid, pneumonia, gastritis, dysentery, and diarrhesa was 18 per cent., and in the Prince Alfred Hospital from the same causes was 20 per cent., the rate in the Children's Hospital from these diseases was only 10 per cent, although this was the year in which so much was said about the unhealthiness of the hospital. A comparison as to cost of maintenance showed that while the average cost per patient in the Prince Alfred Hospital is about £75, the average cost in the Children's Hospital is only £55 10s.

OPTIM-SMOKING (says St. James' Gasette) is generally denounced as a "vice"; but notwithstanding all that has been said against it, there are not wanting those among medical authorities who assert that the ill effects of the habit have been, to say the least, grossly exaggarated, and that in cortain instances it is absolutely beneficial to health. The question was brought under notice at the last meeting of the Milesend Board of Guardians. The assistant medical officer reported that an immate of the workhouse infirmary, by name John Noskes, who suffered much from neuralgis, had been in the habit of smoking as much as thirty grains of optum. The medical officer's suspicion having been aroused, he intercepted a small parcel addressed to the man, and found it to contain two drach as of opium. This he had refused to give up to Noskes until he left the infirmary. But if Noskes can only assuage the agonies he suffers from neuralgis by opium-amoking, why should he be denied the remedy? Mr. A Deakin moved the second reading of the Factory Bill, which proposes to enforce proper annitary regulations in factories, and also to limit the working hours of women, boys, and girls, but not to touch the sight hours' question generally. The "sweating" system is to be inquired into by inspectors with a view to future legislation. It is estimated that 2000 factories will come under the bill, employing 45,000 hands. The bill is based on the recommendations of the Shops' Commission, and the English Act, from which 40 clauses have been taken. The bill provides that all shops are to close at 7 p.m. on week days, and 10 p.m. on Saturdays, in all cities and towns, and in the metropolitan districts, the exceptions being exting houses, chemists, shops, &c., but the operation of the Act may be suspended where two-thirds of the Shopkeepers in a particular locality pctition in favour of it. Scatz may be ordered by the inspector for the asso of employees in shops. The debate on the Factories Bill was adjourned. A number of small bills were passed. Mr. Durham moved the second reading of the Colleges of Agriculture Bill. The proposed colleges are to be endowed by 150,000 acres of land. The debate was adjourned.

In the Legislative Council further progress was made with the land Bill. No important amendments were effected, and only a few clauses remain for conditions of the industry may be regarded as now firmly established.

The weather was fine, and the wicket rolled out so well as o be all in fayour of the battemen. When, therefore, the Victorians went in to make 207 runs to win, their chance me over, the attack at the other end being entrusted on Robertson, who had been so successful on he provious day. Both of the batsmon settled Sown to steady play, and from the easy way that the ball went along, a protracted stand was expected. Runs were made freely, principally off the bowling of Morris; but Aobertson was bowling better, and at length, when the score was augmented to 14.9, Barnes foodishly ran himself out in attempting a third run for a hit of Peel's. His innings for 46 runs was a first-class performance considering the treacherous turd upon whilch he had to negotiate the bowling. He never gave the ghost of a chance, and his free, upright play was greatly admired. Hunter, the last man, did not trouble his opponents long, for after making a single he played out of a short one, and sent the ball up in the sir, when it was caught by the bowler, Robertson. Peel, not out for 9, played exceedingly well, and would have been very troublesome had Barnes not gone. The innings closed for a total of 150 runs, which may be considered a good one, so sticky was the wicket. The bowling of Robertson and Trumble was the best of the Victorians; but Bruce was very erratic, and bowled many plain balls. The fielding was excellent all through. With the task of making 207 runs to win, M'illwraith and Robertson were the two first Victorians, who faced the bowling of Ulyett and Peel. Steady play ensued, the batsame to they are couple of yards. Horsan, the Victorian captain, joined Robertson, and he at once seemed at home with the runs, but Horsan began to score of Peel, making several protty strokes from the left-hander, and bringing up 10 on the board. Then Flowers relieved Peel, and Attewell was substituted for Ulyett. The change had the desired effect, and Horna was caught at point by Shrawsbury of Flowers for 5. Two wickets down for 25 runs. Utimately the matter was referred to the sading clubs for their advice as to classification, &c. The Laidey Soulls for all amateurs, in outriggers, was proposed to be hold over until after the regarts in order that it might be pailed over the champion course, thus scentric amounts, then scentric amounts the same of the pailed over the champion from collishons and other accidents. The matter was held over for decision at a future meeting. A race for amateur slabourers, to be pulled in boats of the double sculling club spirit class, was acticed to the programme. A letter was received from Mr. Trickett, Minister of Public lastruction, suggesting to the committee the desirability of including a four-oard race for members of the press engaged on the literary stoff, to be pulled in four-oard atting-test gigs. It was then proposed that a race should be provided for sailing-boats which were unable to compete in other events, and to conform to the following rules: "They must be all open boats of 20 feet and upwards, not entered for any other race, crews to be limited, and boats handicapped. Alter some discussion and explanation, this was put to the meeting and carried. A vote of thanks to the chaliman closed the proceedings,

was put to the meeting and carrier. A vote of manner of the chairman closed the proceedings, and the meeting adjourned.

Our Newcastle correspondent telegraphs that the Wallsend Athletic Club have decided not to give Green the £70 and cup for the All-comers Handicap, which he won on the Prince of Wales's Hartiday; but they have disqualified him, as a statutory declaration has been made that Green produced a false record as to his past feats and his age. The prize and cup have been handed over to Trotter, who came in second.

MADAME CHARBONNET-KELLERMAN'S
CONCERT.

A grand concert will be given by Madame CharbonnetKellerman, assisted by leading musical talent of Sydney, at
the Protestant Hall this evening. The proud position which
this gifted pianist holds guarantees that, among the profusion of good things we have had and are having, this entertainment will rival the best. The programme includes a
grand Valse de Concert, composed and now introduced
to the public by Madame Kellerman, a violin sole
by Monsiour de Willinoff, and a clarionet sole by Mr. F. C.
Cooper. The vocalists will be Signors Fabria, Medame
Mera, Mrs. Spencer, Mr. Charles Harding. The
"Hallelijah Chorus," and also the "Wedding March,"
will be played on seven pianos by pupils of
Madame Kellerman. Great disappointment is felt at the
inability of Mr. Radeliff, the flautist, and Madame Rifa to
take i art in the concert, as at first amounced, as they are
absent in Queensland.

There was only a moderate attendance last night at the

absent in Queensland.

There was only a moderate attendance last night at the Academy of Music to witness Rainer's "Diorama of the American Civil War." Judging from the appliance which greeted the production of Lany of the pictures, those present were highly pleased with the entertainment, which is at once instructive and amusing. Some of the somes depicted are graphic pictures of the mighty struggle which took place only a tew years ago between the Federal and the Confederate States of America. An illustration of the naval engagement between the Kearsage and the Alabanfa was given. A number of prizes were distributed at the conclusion of the entertainment. The diorama will be continued nightly during this week.

On Saturday most, at the Opera House, Mr. Luscombe Scarelle's opera "Bobaddil" will be produced for the first time on any stage. As will be seen by a notice in our advertising columns, the principal satistes in the cast are elever and popular, the chorus will be a large one, and Messra. Majeroul and Wilson will put the work upon the stage in good at le.

       The Premises are SUBSTANTIAL and in GOOD REPAIR, but
he increased value of the site is suggestive of the creation of a
uperior class of buildings, which would undoubtedly at once
command tenants at very remunerative rentals.

RESIDENCES, GARDENS, ORCHARDS, DAIRY VAIMS,
the roads having been so determined as to allow of purplishers acquiring areas up to 35 overs in extent without intersecting lines causing additional fencing.

The land to be offered as above is nearly all of rich garden or chard soil. The cirvation is 2067 FRET above sea level; the air is dry and ealth-improving; the nights are cool even in the height of sum-ers, and the mosquite peat is not known.

Around Mittagong are charming walks and drives in every direction, making easily accessible to pedestrians, equestrians, or carriage carried invalids, scenes of charming beauty and exten-not to be surpassed in any other district in the colony within reach of a rall-way station, not even excepting the grand scenery of the Blue Mountains, which cannot be visited without endies battere and possible risk of limb.

MITTAGONG possesses great advantages in connection with its allway communication with Sydney over all the other stations on he Southern Railway between Granville and Goulburn. It has n week days 4 trains running each way, with anadditional one on interselve. All the trains in and out stop at Mittagong for 20 minutes; this delay is saved to inhabitants of Mittagong and neighbourhood, who on arrival by train can at once proceed homewards.

On arrival at Mittagong a cold collation will be ready by way of luncheon, to which intending purchasers will be invited, free of charge.
